

To whom it may concern

Letter of recommendation

Oslo 16/10-2014

Clean Carpet AS is one of the largest cleaner of oriental area rugs in Norway. Included in our business we have very long traditions in restoring Persian and other oriental rugs as well.

Many years ago we got to learn about Fiber ProTector products for protecting carpets as we had clients asking for spill and stain protection on their sometimes very expensive carpets. Since then we have offered this unique product to our clients with a no complaints history. It does not change the feel or look of the wool, it is just a very well working protection against soil and stains.

We are happy to recommend this bespoke product to anyone who cares for their carpets

Kind regards:
