To whom it may concern,

Re: Premium Surface Protection

We have been using Premium Surface Protection to clean and protect our common area furnishings both indoor and outdoor and carpets, rugs etc in our residential developments. They were very professional and worked in well with scheduling to minimise disruption.

The cleaning is always very successful and the Fiber ProTector textile treatments are really effective, spills and stains are very easy to clean ourselves and the fitout maintains its new look for longer between maintenance cleaning.

We are extremely happy with our investment and highly recommend their services.

Yours faithfully
MARQUEE PROJECTS PTY LTD
