Dear Espen,

I'm writing this note as a 10th anniversary thank you for both our professional and personal friendship. Your Fiber ProTector system remains an integral part of our production process and is applied to each and every handmade wool rug and carpet built by our company. There is no question that Fiber ProTector is the state-of-the-art protection system and our customers know and appreciate this. I thank you and our customers thank you.

I told you years ago that we would never stop looking for a better product. I can tell you that there is nothing even close out there. Keep up the outstanding work and we certainly are looking forward to the next 10 years of serious business and great fun. We'll see you in Oslo next summer.
