## Corporate Overview

Premium Surface Protection is a specialised service company focussed on the treatment and protection of all textiles in commercial and residential interior fit outs.

Premium Surface Protection (PSP) has a fine-tuned business structure which provides their clients with a highly effective textile protection and maintenance system. This preventative maintenance system extends the life and vibrant appearance of valuable assets and therefore reduces scheduled maintenance, saves on costs and thus contributes towards a sustainable facility.

PSP has the exclusive distribution rights to Fiber Protector, the world's most technically advanced and effective textile protection system available, non-toxic and non-allergenic. They provide anti-soil and stain treatment for premium hotel chains, cruise ships, airlines, public transport, theatres, corporate offices and works with custom made manufacturers of exclusive carpets, rugs, fabrics and furniture.

PSP also offer the most highly effective flame retardant product for natural and synthetic fibres used in theatres, commercial fit outs, hotel chains and cruise ships.

### Protecting the Beauty, Colour & Life of Your Furnishings

Premium Surface Protection company specialises in preventative maintenance solutions which focus on keeping client textile assets (carpet, rugs and furnishings) looking new for longer and decreasing yearly maintenance costs.

Fiber ProTector is a revolutionary system that is able to encapsulate the microscopic holes within the carpets' or fabrics' fibre. After application, the fibre keeps all it's natural properties, like breathability, look and feel. Dirt is completely blocked from penetrating the fibres and lies on the outside of the fibre, therefore daily vacuuming is more effective. When cleaning carpets, plain hot water is usually enough to remove contamination that has not been picked up by the vacuum cleaner. The result is reduced wear and tear due to cleaning processes.

Fiber ProTector also provides antibacterial properties to carpets and fabrics to prevent the growth and spreading of bacteria, fungus and mould that can quickly grow and multiply in carpets, rugs, office chairs and other textiles.

The high profile clients and partners we work with are a testimony to our company ethos and the products we stand behind.

## Jason Gilling Operations Manager - Indooroopilly Shopping Centre - AMP Capital

Premium Surface Protection have been rejuvenating and protecting the rugs and furniture in our public spaces over the past few years. We have decided to use high end furnishing assets to enhance the experience of our visitors, so protecting our investment is a top priority. The Premium Surface Protection team are great to deal with and complete all works quickly and professionally when needed between other trades and after hours when necessary. They have also carried out scheduled cleaning, and we are always amazed with the results of their proprietary cleaning techniques. The Fiber ProTector is very effective - spills and stains are very easy to clean for our regular cleaners and the furnishings have kept great appearance. We are glad we made the decision to protect our soft furniture assets and highly recommend their services.

## Tim Maffey National sales manager Warwick Fabrics Australia Pty Ltd

At Weave, we proudly align with companies that have the same passion, drive and ethical standards in the product and service they offer, which is why we exclusively recommend Premium Surface Protection for their rug protection formula Fiber ProTector. They are experts in their field on all things related to fibre and surface protection. We recommend that once receiving your new weave rug to contact Premium Surface Protection directly for a free quote to treat your rug so that your treasured investment can continue looking as new as the day you first unrolled it.
