WonderSpot
Encapsulating Spot and Stain Remover

NO NEED TO RUB OR SCRUB, LEAVES NO RESIDUE

Product Description

WONDERSPOT ENCAPSULATING SPOT AND STAIN REMOVER is a WOOLSAFE and CLEANSEAL approved general-purpose upholstery, rug and carpet stain remover.

It is safe to use on all non dry clean only fibres, it is non-toxic and non-hazardous. It does not cause resoiling as it contains polymers that encapsulate stains and soiling.

It is water based, neutral PH and mixes readily with water to facilitate removal by professional extraction when this is required.

Directions for Use

Use WONDERSPOT ENCAPSULATING SPOT AND STAIN REMOVER undiluted directly from the spray bottle onto carpets and via a white microfibre cloth for upholstery. Never apply WONDERSPOT directly to upholstery.

Remove any loose soil before applying WONDERSPOT, work in gently and then absorb with a white absorbent or microfibre cloth. Absorb until almost totally dry to avoid forming a ring mark. Repeat if necessary.

For upholstery, always pre-test in an inconspicuous area. Check for colour transfer to a white tissue when wet or appearance change when dry.

Safety Notes

As with most efficient cleaning compounds WONDERSPOT ENCAPSULATING SPOT AND STAIN REMOVER will have a drying or defatting effect on the skin and it is advisable to avoid contact as much as possible e.g wear suitable gloves. Always wear eyewear protection when handling the product. If splashed into the eyes, rinse cautiously with water for several minutes and seek medical attention if irritation persists.

As with all chemicals or detergents, store out of reach of children and refer to the SDS for more detailed advice.
